

➤ CurveSign

A complete sign system with a slightly curved front and a unique lock system

DanSign

Design

This sign system is designed with a slightly curved front and supplied in colours of your choice as well as in maple wood veneer, suitable for any environment.

Choice of Material

The signs are made of lacquered ABS with extruded aluminium mounting brackets.

Lock System

The magnetic lock system is simple. A hidden spring lock integrated in the sign locks the sign when it is mounted. The sign is released again by use of the magnetic key.

Mounting of Sign

To mount a sign is easy. The sign is pushed onto the mounting bracket and is locked so that it cannot be removed by unauthorized persons. It is released by use of the magnetic key.

Wall signs with pictograms

Paperflex sign with Braille

In the CurveSign program you will find:

- » Wall sign, projecting sign, suspended sign, meeting room sign and desk sign.
- » Paperflex sign for standard paper sizes for your own quick updating of information.
- » Monolith as an info stand.
- » CurveVision – an electronic information system as wall sign, suspended sign and monolith. Built-in flat screen and display controller. Internet-based system for distribution of meeting room activities, welcome to guests, slideshows, etc.

CurveSign is a modular sign system. A comprehensive range of sign types and sizes can be combined in countless ways creating a uniform sign system for any environment.
