## ➔ PlanSign

A complete sign system in timeless design  
and sturdy material with a unique lock system

# DanSign

## Design

This timeless, minimalistic design makes it ideal for any environment. The sign is flat and mounted 5 mm off the wall.

## Choice of Material

The sign series is produced of 5 mm solid aluminium with a silver anodized finish that gives a hard and resistant surface. The choice of material makes the system suitable for indoor as well as outdoor environments.

## Lock System

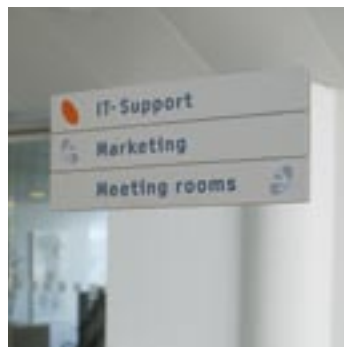

The magnetic lock system is simple. A hidden spring lock integrated in the sign locks the sign when it is mounted. The sign is released by use of the magnetic key.

## Mounting of Sign

To mount a sign is easy. It is mounted on the hidden bracket by custom-made aluminium rivets that mesh with the grooves on the back of the sign.

Wall sign with Braille

## In the PlanSign program you will find:

- » Wall sign, projecting sign, suspended sign, meeting room sign and desk sign.
- » Paperflex sign for standard paper sizes for your own quick updating of information.
- » Monolith as an info stand.
- » PlanVision – an electronic information system as wall sign, suspended sign and monolith.  
Built-in flat screen and display controller.  
Internet-based system for distribution of meeting room activities, welcome to guests, slideshows, etc.

PlanSign is a complete modular sign system. A comprehensive range of sign types and sizes can be combined in countless ways creating a uniform sign system for all indoor and outdoor environments.
